

## **Inclement Weather Policy**

In the event of questionable weather at a CRIP location, CASPR/CRIP staff will use the [www.casprcrip.org](http://www.casprcrip.org) site to make any announcements regarding the weekend. A snow date alternative will no longer be published. Staff will use the web site to communicate the status of each CRIP weekend when weather is questionable. Information will be available on the home page as well as under "What's New."

All announcements will be time and date stamped so that all parties will know they are receiving the most up-to-date information. COTH Regional Representatives and GPDs will be notified by email. They can then notify their respective groups of the most up-to-date information. Programs unable to make their scheduled plans will work with CRIP staff to determine how interviews will be held. Programs and students are strongly encouraged to allow for possible travel delays in their plans.
