PROGRAM OVERVIEW

This PMSR program provides a comprehensive surgical education through a positive learning environment where interaction with podiatric and orthopedic faculty is highly encouraged. The program is well-rounded with an emphasis on wound care, limb salvage and orthopaedic trauma. Residents can expect to perform a high number of surgical procedures. The resident has the opportunity to learn from over 20 podiatric surgeons and our tremendous relationship with orthopedics provides the ability to work with multiple orthopedic surgeons on a daily basis. A high emphasis is placed on didactic activities, the resident can expect to meet weekly in radiology conference, grand rounds, journal clubs, and pathology lab. Long Beach Memorial Medical Center is affiliated with the University of California Irvine
