Deadline: 11/7/2018**Payable To:** n/a**Other Applicant Requirements:** none.**AVAILABLE RESOURCES****Sample Contract:** Contact Program **Benefit Package:** Contact Program **Curriculum:** Contact Program**PROGRAM OVERVIEW**

St Mary's Medical Center's three year PMSR/RRA residency is a high intensity program with three entry level positions available for the highly motivated and dedicated student. The first year of training is a "true intern year" consisting of many off-service rotations to build a strong foundation for management of podiatric patients. Podiatric residents are active members of the team on all off-service rotations. The second and third years of training are spent using that knowledge base in a variety of clinical and surgical settings for a comprehensive education. Foot and ankle rotations include private practices, multi-specialty groups, resident-run clinic, surgery centers, community hospitals, large private hospitals, and a level 1 trauma center. Weekly academics, research, and hands-on workshops supplement resident training. At the conclusion of the program, residents have been exposed to all aspects of foot and ankle surgery with the diverse experience that the program offers.
