Instructions are provided to assist all applicants in starting their Madigan application process: The Madigan PMSR/RRA is the only Residency Program in the country which trains Civilian residents with no commitment with the military. However our program REQUIRES that an additional Government Medical Application be completed by ALL applicants, along with the CASPR/CRIP processes and procedures. Completion and approval of the Government Medical Application is mandatory before an applicant can be considered for Madigan Residency training. Applicants will need to pass a background check, need to be a US citizen and complete a drug test. Subsequently, ALL interviewed applicants are also required to BEGIN (or) INITIATE the Government Medical Application process after the match process for a residency spot at our facility. Please correspond with Ms. Copp at Margaret.f.copp.civ@mail.mil to obtain program information. Application process will be sent upon approval. There is a possible merger with another local institution in 2017.
