High-paced program dealing with a full variety of medical and surgical pathologies. Busy daily clinic from which residents develop superior clinical skills and their surgical cases. All residents exceed surgical requirements for ABPS. One sixth of time is spent on external podiatric surgical rotations in the Phoenix valley. Graduates have a broad experience caring for complex medical patients in both the inpatient as well as out patient settings. Furthermore, they have significant experience with a wide variety of podiatric pathologies, wound care, podiatric surgery, and the podiatric/medical training necessary to manage any patient (or complication) encountered in podiatric practice. All residents are board qualified upon completion of training and have been successful in private, group, and multidisciplinary practices.

The Carl T. Hayden Veterans Affairs Medical Center PMSR/RRA program is approved by the Council of Podiatric Medical Education for 12 residents (4 each year) through 2019-2020 when our next onsite evaluation will take place.
