Visitation and/or clerkship rotation strongly encouraged. CV**AVAILABLE RESOURCES****Sample Contract:** Contact Program **Benefit Package:** Contact Program **Curriculum:** Contact Program**PROGRAM OVERVIEW**

This is one of the premier surgical residency programs in the country with more awards won at the National Post-Graduate Research Forum than any other program. Research is an important part of our program. Many of our faculty are nationally and internationally recognized experts in nerve decompression, charcot reconstruction, joint replacement, and external fixation. Our faculty is internationally reknown, and regularly lectures throughout the United States, Europe, North America, and the Middle East. Our residents benefit from the world stage this program has, and not only keep up with worldwide knowledge exchange, but also rotate with the world's best foot and ankle orthopedic surgeons, trauma surgeons, and podiatric foot and ankle surgeons. Also, one of the best overall experiences in pediatric foot and ankle surgery. The very rare excellent program with the diversity to give residents competence in everything from pediatric reconstruction, charcot reconstruction to ankle replacement under probably the most reputable and morally intact faculty nationally.
