This well established, long running medical & surgical program prepares the podiatric resident for all aspects of future podiatric practice. Extensive exposure to pre-op and post-op surgical podiatry, general practice, wound care, practice management, hospital protocols, community service and inter-professional relations are obtained over the three year training program. The required CPME clinical experiences are also presented via our medical and podiatric attending faculty members. This program will be a three year commitment.
