PROGRAM OVERVIEW

The Kern Residency at Michigan Surgical Hospital (formerly Kern Hospital) has offered podiatric residency training programs since 1956. Our comprehensive program ties together primary care and surgery of the foot and ankle to create a well balanced learning experience. The strongest feature of this program is the clinical experience provided at our clinic with emphasis on diabetes, PAD, forefoot, rearfoot and ankle surgery. Residents will exceed minimal surgical volume and diversity. We provide a full schedule consisting of weekly PRESENT lectures, McGlamry's review, clinical case review, supplemental lectures, workshops and journal club. The residents receive a competitive salary and benefits packages in the state of Michigan. A one-month clerkship program is also available. Visiting the program is strongly encouraged but not required. Please visit our website for further information. We look forward to receiving your application. No Fellowships are offered.
