This is a well balanced surgical program with emphasis on surgical skills, pre and post operative management. Wound care is offered when done through office rotations. Office and billing experience is handled through the clinic as well as podiatric private practices. Hospital-based clinic experience is done while working closely with the other medicine residents. The hospital is a modern facility with excellent resources. Rotations are designed to expose the resident to all of the necessary skills needed to function and be successful in private practice or group practice.
