Residency at Jackson North Medical Center focuses on all sub-specialties of Podiatric Medicine with an emphasis on Foot & Ankle trauma. Residents participate in yearly publishable research projects. Our affiliation with the Barry University School of Podiatric Medicine and the Brand Center of Research allows our residents to participate in on-going medical research. We are also affiliated with Dr. Robert Snyder's Post-Residency Wound Care/Research Fellowship, of which graduates of JNMC are given preference. Residents have the opportunity to participate in medical mission trips with the Yucatan Crippled Childrens Project as well as with the Podiatry Overseas Association in Africa, Brazil, and Guyana.
