Westchester General Hospital is a 125-bed acute care hospital serving the Miami community since 1966. In 2006, the hospital expanded with state-of-the-art Surgical Department, ICU Unit, Emergency Room, and Med-Surg Unit. Training resources available include North Shore Hospital, outpatient ambulatory surgical centers, wound care centers, and private offices. This is a highly academic program with a great deal of responsibility placed upon the residents including an active ER and in-house patient management. Each resident is expected to be fully prepared academically & possess exceptional clinical & surgical knowledge in order to be provided with the opportunity to gain training in surgery of the foot and ankle. A wide array of weekly didactic & research training experiences are provided to enhance the residents' fundamental knowledge hence fully preparing them for private practice.

Applicants from Barry University in Florida may be interviewed locally. Other applicants will be interviewed at the program's assigned CRIP date.
