PROGRAM OVERVIEW

The strongest feature of our program is the hands-on approach that is introduced from the first day of arrival. This residency is an integral part of a teaching hospital affiliated with the Warren Alpert Medical School at Brown University. All rotations are geared to teaching through that hands-on approach. The podiatric clinical experience is invaluable with outpatient office rotations. Here you learn to work up a spectrum of pathologies and follow patients throughout their entire treatment course. In addition, they offer a real look into everyday podiatric practice. The surgical exposure is also done through a hands-on approach from day one. The surgical cases FAR exceed all requirements in each of the surgical categories. If you are a hard-working and self-motivated individual who comes prepared every day, you will excel here. Although the work is substantial, we also expect you to have fun and enjoy the experience. Salaries are expected to increase yearly.
