PROGRAM OVERVIEW

This is a three year PMSR/RRA program.

This is a diverse program with surgical and clinical numbers approximately twice the CPME requirements. There is a wide variety of foot and ankle pathology, including diabetic limb salvage, elective reconstruction and trauma. The residents are fully intergrated with allopathic residents. All post-operative University Hospital patients are followed in the state of the art podiatry clinic.

University Hospital is part of an Academic Health Science Center and the principle teaching hospital for the Rutgers New Jersey Medical School. Residents have access to the on campus library, skills labs, and lectures. Weekly academic sessions are held Wednesday mornings. Research opportunities are available.
