As of June 1, 2017, The Bellevue Residency program completed the onsite evaluation in November 2016. The program has made a request for Rear-Foot certification with the Council for July 1, 2018. We are waiting for CPME to approve the program based on the current RearFoot Surgical logs. The Bellevue Residency program is also requesting an additional increase in the number of residents. All residents will rotate through the above institutions. Orthopedic program is available at Bellevue and Jacobi Hospital, New York City. Residents will be embedded with medical residents during the rotations. Weekly clinical & surgical lectures, and grand rounds are part of the resident's schedule.
