Deadline: 11/8/2017**Payable To:** n/a**Other Applicant Requirements:** none**AVAILABLE RESOURCES****Sample Contract:** Contact Program **Benefit Package:** Contact Program **Curriculum:** Contact Program**PROGRAM OVERVIEW**

The program is an intensive four-year program, devoted to all aspects of Foot and Ankle Surgery. This includes trauma, reconstructive, arthroscopy and endoscopic surgery of the rearfoot and ankle. There is extensive training in external and internal fixation. The first year emphasizes medical management on in-patients. Students ask why we have four years. We have added a first year that emphasizes medicine and medical management of in-patients. Besides the addition of the first year the fourth year is devoted to supervision, teaching and research. The fourth year is not added time to get case numbers--- all residents have their surgical and medical numbers after the 2nd year! We invite any candidate to view resident logs when they visit the program. This program is long hours and hard work--if this scares you please do not apply. The program has a full time residency director, and associate director. There is also 4 half time podiatry faculty as well as 80 voluntary podiatry staff. There is weekly formal lectures, journal club as well as teaching rounds on all in-patients.
