

## Introduction to MP II

We at CASPR are happy to introduce to you a new service that we shall be officially launching in spring 2015. Beginning in March, you will be able to avail our newest development, MP II. This program runs to efficiently and effectively replace scramble. In March, Match week begins with the releasing of the CASPR Match results to applicants and programs. Every year there are positions that go unmatched. A residency program with unfilled positions tries to fill those positions with unmatched applicants. MP II, an acronym for Match Phase Two, is a structured process after the initial Match. MP II is the offer and acceptance of unfilled positions within six rounds. MP II provides an opportunity for unmatched applicants to find a position. Many positions fill within the first round.

MP II goes live March 2015. We have demos, presentations and CRIP CME workshops available to help you get acclimated to this new process. As an applicant, it is important for you to know that a series of six offer rounds take place. At the beginning of each round, an offer goes out for each position that a program has available, based on the ranking list provided. Applicants have two hours to accept or decline the position. At the end of the two hours, any position that has not been accepted will be automatically declined.

Match Week Below:

**Monday 11AM** - Applicants and programs are notified if they matched, affirming where and with whom. The list of unmatched positions is released. Applicants who are unmatched can update and resubmit their application to begin designating programs.

**Monday 6PM** - Applications are delivered to programs. Programs begin reviewing applications and conducting phone interviews.

**Tuesday 11AM** - Ranking lists open for programs. They rank as many applicants as they are willing to take in numerical order.
