

Unfilled Positions Protocol

At the conclusion of match and MP II, CASPR does not participate in the placement of applicants into unfilled PGY 1 positions. Programs are freed from their “all in” commitment to match their first year residency positions through the CASPR match and MP II. Programs and applicants are may contact each other directly and enter into agreements without interference.

As a courtesy, CASPR posts unfilled PGY I positions on [CASPRCRIP](#) at the conclusion of match week so applicants still seeking placement are able to identify and contact directly those programs with unfilled first year positions. The AACPM Office of Graduate Services (OGS) will contact unfilled programs periodically to determine if positions are filled. If a position is filled, it will be removed from the posting on CASPRCRIP. Programs are also encouraged to proactively contact the Office of Graduate Services to provide updates on their unfilled positions.

CASPR also posts advanced year PGY 2 and PGY 3 positions that open up at residency programs. To have an open advanced year position posted on CASPRCRIP, contact the Office of Graduate Services. You will be provided with a “Unfilled Positions” form to complete with information on your open position. As with unfilled first year positions. OGS staff will periodically contact programs posting advanced year positions to determine if positions are filled. If a position is filled, it will be removed from the posting on CASPRCRIP. Programs are also encouraged to proactively contact the CASPR office to provide updates on their unfilled advanced year positions.

The Office of Graduate Services can be reached at casprweb@aacpm.org.
